

# INDEXSY Meme Coin

A Community-Driven Meme Coin with Philanthropy & Deflationary Mechanics

Jacky Chou

Indexsy Consulting Ltd.

**Abstract.** This whitepaper introduces INDEXSY (\$INDEXSY), a meme coin on the Solana (SPL) blockchain that merges cryptocurrency culture, community-driven philanthropy, and entertainment. INDEXSY donates 100% of net revenue to autism-related charities (e.g., Canucks Autism Network), employing token burns and buybacks purely for community engagement. The token does not confer equity or security-like rights, nor does it guarantee financial gains. This paper details the tokenomics, philanthropy model, utilities, and a comprehensive disclaimer highlighting regulatory risks. By blending meme culture and social impact, INDEXSY aims to showcase how crypto can be leveraged for charitable initiatives while underscoring the high-volatility and experimental nature of digital tokens.

# 1. Introduction & Disclaimer

## Disclaimer

- **Not an Investment or Security:** INDEXSY (\$INDEXSY) is a meme coin project intended for philanthropic, educational, and entertainment purposes *only*. It is not intended for investment, nor does it represent shares, equities, or any form of security under Canadian, U.S., or other laws. No one should purchase \$INDEXSY with an expectation of profit from the efforts of the founder, team, or community.
- **Founder Compensation:** The founder does not receive any direct proceeds from token sales, buybacks, or any other revenue sources.
- **No Guarantees:** There is no promise of token price appreciation, financial returns, dividends, or other gains. Past, present, or future performance of \$INDEXSY should not be relied upon to make financial decisions.
- **Regulatory Caution:** Given that holders may be located in multiple jurisdictions (including the U.S. and Canada), participants should consult local laws and regulations. Holding or transacting \$INDEXSY could carry compliance obligations in certain regions.

INDEXSY is built on Solana (SPL token standard) with a vision to leverage meme culture for social good—specifically supporting autism-related causes. We aim to evolve from a purely “meme” project into a community-driven, philanthropic ecosystem.
