$INDEXSY Meme Coin

A Community-Driven Meme Coin with Philanthropy and Deflationary Mechanics

---

1. Introduction

INDEXSY is a meme coin built on Solana, designed to combine humor, education, and charitable impact. INDEXSY aims to evolve from a meme-driven project into a utility-focused token while donating **90%** of its proceeds to autism-related causes. INDEXSY prioritizes transparency, community trust, and sustainable growth.

---

2. Vision & Mission

Vision: To create a meme coin that leverages crypto culture for social good while rewarding long-term holders.

Mission:

- Donate **90%** of revenue to support autism initiatives.
- Build utility through token burns, buybacks, and exclusive services.
- Foster a transparent, rug-proof ecosystem.

---

3. Tokenomics

- **Token Name:** $INDEXSY (SPL Token on Solana)
- **Contract Address:** 9WeQ4526GbxDgFu8PPHWm1zfX4ie5xKjwyBsk1RMpump
- **Initial Supply:** 50M tokens
  - **80% Locked:** 40M tokens secured via [Streamflow](#), released gradually to prevent market dumps.
  - **20% Burned:** 10M tokens permanently removed to reduce supply.

Deflationary Model

- **Buybacks:** 100% of affiliate revenue (e.g., ads, partnerships) funds automated buybacks. 50% of purchased tokens are burned immediately, the remaining 50% is locked up via Streamflow decreasing circulating supply.
- **Service Burns:** Revenue from $INDEXSY-paid services (e.g., ads, consultations) triggers additional burns.

---

4. Philanthropy

- **90% of Proceeds:** All revenue from token sales, affiliate partnerships, and services is donated to the Canucks Autism Network (CAN).
- **Transparency:** Donation receipts and transaction hashes will be publicly shared to ensure accountability.

---
